Profile

Master's student in Computer Science with a specialization in Data Science and Machine Learning. Currently writing a master's thesis on *Security-Oriented Comprehension of LLM-Generated Code Using Virtual Reality*. Several years of hands-on experience as a working student in German IT companies and as a research assistant at the SICP – Software Innovation Campus Paderborn. Strong interests in Virtual Reality, Unity development, Machine Learning, LLMs, and interactive systems.

Technical Skills

Programming languages	Java, Python, R, Prolog, C#, C++, CSS, JavaScript, HTML
Software and tools	Git, Linux, Docker, Jira, Unity Engine, Blender, Unreal Engine
Databases	MySQL, SQLite

Professional Experience

11/2024 – present	**Research Assistant – Paderborn University** SICP – Software Innovation Campus Paderborn, Germany
10/2023 – 10/2024	**Working Student – IT Support** OEDIV Oetker Daten- und Informationsverarbeitung KG, Bielefeld, Germany
08/2017 – 09/2018	**Logistics Assistant, Full-Time** Hörmann KG, Steinhagen, North Rhine-Westphalia, Germany

Education

10/2024 – present	**Master's Degree Programme in Computer Science** Paderborn University, Germany
04/2022 – 09/2024	**Bachelor of Science in Computer Science, final grade: 2.5** Paderborn University, Germany
11/2019 – 04/2022	**Academic Break** Bielefeld, North Rhine-Westphalia, Germany
10/2018 – 10/2019	**Computer Science Studies** RWTH Aachen University, Germany
11/2015 – 07/2017	**German Language Course – TestDaF C1** Bielefeld, North Rhine-Westphalia, Germany

10/2012 – 10/2015	**Dentistry Studies** Damascus University, Syria

Selected IT Projects

2024	**Bowling VR** Interactive bowling VR game developed in Unity to learn the basics of VR development and VR settings in Unity. Available on GitHub and in the portfolio.
2025	**Restaurant VR** Interactive VR game and environment developed to support a doctoral research project at Bielefeld University. Available on GitHub and in the portfolio.
2025	**VR Drone** VR environment in Unity for controlling virtual drones using Meta Quest controllers, LLM agents, and speech commands. Available on GitHub and in the portfolio.
Current	**SECAIVR** VR environment in Unity developed as part of my master's thesis.

Research Experience

10/2024	**Bachelor's Thesis – Behind the VR Wheel: Investigating the Impact of Assistance Systems on Driver Behavior, final grade: 1.3** Paderborn University, Germany. Available in the portfolio.
06/2025	**A Systematic Literature Review on the Role of Emotions in Virtual Reality** Seminar paper, Paderborn University. Available in the portfolio.
05/2026	**Co-author – Does It Hurt Less When the Excluder Is Less Human-Like? A Multi-Study Investigation of Social Exclusion Across Agents and Modalities** SAIL Closing Conference 2026. Available on ResearchGate.
06/2026	**Co-author – Exploring Ostracism and Rejection with Different Agents in a Virtual Restaurant: A Multimodal Approach** Available on ResearchGate.
07/2026	**Change Your Perspective – A VR Driving Simulator to Enhance Safety Awareness in Public Road Traffic** 2026 10th International Conference on Intelligent Computing and Virtual and Augmented Reality Simulations, ICVARS. Available on ResearchGate.

Languages

German: TestDaF C1, certificate available

English: B2 level, certificate available

Arabic: Native language

Spanish: B1 level, course at Paderborn University, no certificate available
